Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "money receptacle" for claims 21, 24, 27, 29; "changer" for claims 21, 27; and container for claim 24 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 21-28 and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Boulter (6093312). Boulter discloses an ice making and ice dispensing system comprising a display front, an ice delivery chute 2004 beneath the display front adapted to receive ice from the ice dispenser 2014, a shelf arranged below the delivery chute 2004, an activating unit including a money receptacle 1404 and a changer 1406 for activating the ice dispenser 2014 to deliver ice to the delivery chute 2004. Boulter also discloses an icemaker 2019 and bag dispenser 2007. See Fig. 14, 17 and 23 Boulter discloses the invention substantially as claimed as stated above. However Boulter does

Art Unit: 3744

not specifically disclose the distance between the delivery chute and the shelf.

Choosing a specific distance between the chute and the shelf is an obvious choice of the individual skilled in the art since there is no criticality or unexpected result from it.

Allowable Subject Matter

Claim 29 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
